

Date: 13th August, 2025

Structural Stability Certificate
(To be jointly signed by IIT Bhubaneswar and HSCL)

This is to certify that EMRS School at Kunda in Koraput District, Odisha is

- A newly constructed structure consisting School Building (G+1), Girls' and Boys' Hostel (G+1), Kitchen & Dining (G) and Warden's residence (G)
- As reported by HSCL, structural design and drawing are vetted by NIT Patna.
- Thoroughly inspected through NDT by Central Building Research Institute (CBRI), Roorkee followed by necessary strengthening measures as recommended by IIT Bhubaneswar.

Based on the structural data provided by HSCL, followed by thorough Visual Inspection and further NDT in presence of the client, the above EMRS is structurally safe on this date for the purpose it is built.

The Indian Institute of Technology Bhubaneswar shall not be responsible for, nor entertain, any legal claims or disputes that may arise in the future in relation to the said structure.

The Construction Agency and HSCL shall be solely responsible for any criminal or civil liabilities arising from the structural safety of the structure.
